## LSX OIL PUMP MOUNTING BRACKETS

Mount Peterson's R4 Oil Pump on your LSX engine with these 6061 billet machined mount blade brackets. These right side or left side mounting systems facilitate forward or rearward pump placement to align with drive pulley and integrate tensioning for belt. Kits include all necessary hardware for mounting your oil pump to the engine block. Brackets are compatible with factory and most LSX casting variants. 3D models available upon request.

#08-9019

## FAT BOY 5 GALLON DLM OIL TANK

When chassis space is limited, and more oil capacity is required from engine builders, look to the new Fat Boy Dirt Late Model oil tank from Peterson Fluid Systems. With a lower profile design and all the standard features of our race proven DLM tanks, you'll get a tank that is 18.62" tall and has a 5-gallon capacity. 10.5" tank straps with mounting brackets are available for your convenience. Part number 08-2106 includes two 10.5" straps with mounts for 1.5" chassis bars or 08-2105 includes two 10.5" straps with panel mount. 3D models available upon request.

#08-0406

## BREATHER CAN, 1 GALLON

Peterson's high volume catch can (approx. 1 gallon) is ideal for long races or high boost applications plumbed with burn down tubes. Whether you have a high performance boat, off-road, endurance racecar, or compete in drag and drive, this premium breather can is designed for you. Fabricated in our facility in Colorado, this can is internally baffled and has a breather filter element. It comes standard with two -12 AN port fittings to plumb -16 AN or -12 AN lines, a drain plug and a mounting bracket.
